## **DETAILED ACTION**

1. Claims 9, 14 and 15 have been amended.

2. Claim 9-15 have been allowed.

## Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

The prior art of the record in particular Torii, 824 does not teach or suggest a supporting structure for a motor main body, which includes a yoke housing, wherein the yoke housing rotatably receives an armature, which includes a rotatable shaft and a commutator including inter alia, a coupling means for coupling the rotatable shaft with the worm shaft. wherein the coupling means includes a driving-side rotators which is connected with the rotatable shaft to rotate integrally with the rotatable shaft and which includes a resilient holding portion for resiliently holding the driving-side rotator around the rotatable shaft, and a driven-side rotator, which is connected with the worm shaft to rotate integrally with the worm shaft and is engageable with the driving-side-rotator in a rotational direction, and a positioning means for positioning the brush holder and the gear housing relative to each other, wherein the positioning means is placed between the brush holder and the gear housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
